Developers Survey

InfoPro Research has undertaken two telephone surveys with developers in the Greater Beirut area.

The first survey was undertaken with a sample of 100 biggest developers in the Greater Beirut area during the second half of July 2020.

The second survey covered the majority of active developers (around 600 developers that still had units for sales) in the same area during August 2020.

Results are those from the two surveys.

Exclusive to members of **LEADERSCLUB**. To obtain the full report please contact clubmanager@leadersclub.com.lb
